

# We Believe That

## Doing good should be easy

Our aim is to get more people doing good in their community. We felt that volunteering didn't always fit into people's everyday lives and so we wanted to create an easy way for people to do something positive, without reducing the benefit to the community groups.

**We think the secret lies in skilled volunteering.**

## Skills + Passion = Impact

By tapping into a volunteers skills we deliver huge benefits in a short amount of time

We match skilled volunteers with the causes they are passionate about

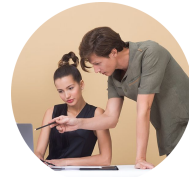

Real impact for your community group

## What we offer ...

### Quick Fire Call

A 60 minute call with an expert in the area you are having difficulty with. When you are scratching your head a little and need that bit of insight from someone who has been there and got the t-shirt. Submit a request and we'll match you with our team of experts.

### Projects

A project is a distinct problem you are trying to tackle. You know what you need, but are being stopped by limited budget or resources. We will advertise your project, find a skilled volunteer and manage the project from start to finish.

**All our projects and calls are advertised on our web platform, as well as being promoted across social media and in our newsletter.**
