What is the course about?

The course will help you understand more about the impact of the pandemic and what you can do to help others in your community. You will hear from professionals and community groups on a number of topics such as; the test and trace programme, risk factors and measures to control the spread of the virus, local support services, supporting vulnerable people, ideas about engagement activity and stories from others who are active their communities.

How will the course be delivered?

Due to restrictions of the pandemic the course will be delivered virtually in an online meeting room. To participate you will need internet access and to be able to follow joining instructions provided when you sign-up.

How long is the course and when are the sessions?
