<b>Average length of grant:</b>	One year

Rooted in the conservation and management of the countryside, the Trust actively encourages children and young people to learn from the land through hands-on <u>outdoor learning opportunities</u> on its estates and by offering grants.</p> <p><b>The small grants programme</b> supports state schools and small registered charities which would like to undertake projects which meet the Trust's objectives and require a small amount of pump-priming in order for such projects to take place. The programme is a rolling one, with meetings at two-monthly intervals throughout the year – but it is wise to think well ahead. Suitable applications are allocated to the next available meeting, however <b>due to high demand you are advised to submit an application at least six months ahead of your project start date.</b></p> <p><b>The large grants programme</b> is aimed at more comprehensive education programmes: these sometimes require support for the salary of an education officer; in such cases the ECT would always expect to be a part-funder. The range of the programme is wide; over the years education projects linked to theatres, art galleries and orchestras have been supported, as have those covering a wide range of environmental and countryside projects.</p>
