

SHARE YOUR EXPERIENCE OF COVID-19

Have you had COVID-19, are you experiencing any long term effect?

Would you be willing to share your story to inform health and wellbeing in Warwickshire?

Warwickshire County Council, Public Health team are seeking case studies on the impact of COVID-19 on health inequalities in Warwickshire.

The case studies will be used to provide the team with wider intelligence on the impact of COVID-19 on health and wellbeing of Warwickshire's population. They will be used primarily inform the Warwickshire Director of Public Health Annual Report 2020 which is exploring the impact of COVID-19 on health inequalities.

They want to learn more about:

- **The Health and wellbeing impact for people who have tested positive for COVID-19** For example; Your personal experience of symptoms and the subsequent impact of the condition, long COVID and any mental health and wellbeing conditions as a result of having COVID.
- **The Impact of lockdown on people's health and wellbeing (positive and negative)** Your experience of Shielding, experiences of lockdown and remote learning or working, unemployment, volunteering, the impact on families/family life and people from BAME community.

If you would like to be involved, please email:
